To Portland Neighbourhood Plan

Re Eden Portland and MEMO Project

The current position with Eden Portland is that the project was unsuccessful in securing bid funding in 2018 to progress detailed planning progress but during 2019 has secured interest from other potential sponsors which are currently being negotiated. The basis of these negotiations remain confidential at the current time but I am hopeful and I would be prepared to discuss this position with the Examiner directly.

It is a key element of the project that it fosters the regeneration of Portland in an appropriate and sensitive manner which aligns with the projects sustainability intentions.

Professor Sir Ghilleen Prance FRS, VMH
Chairman, MEMO Project
