MR K. GLEED

Dear Mr James

Further to your letter regarding plans for Lower Blandford St Mary

I am not happy with the crossing of the A350. I am 87 years old & I have COPD this affects my breathing & I walk very slow at crossing the road.

This will affect the price of our property, as we came here because there were fields all around us not houses.

We have been in this house for 20 years & love it, and we are too old to move now.

Yours sincerely
