

Appendix - Main Modifications

The Main Modifications below are expressed in the conventional form of ~~strikethrough~~ for deletions and underline for additions.

Further minor Additional Changes will be required to the text of the Plan as a result of incorporation of Main Modifications (See separate schedule of Additional Changes – MHD053).

The new page numbers take account of the repagination arising from deletion or addition of text as previously set out in the submission version of the local plan.

The four Main Modifications (MM) that are asterisked * have been revised (with the agreement of the Council) following consideration of the consultation responses to the MMs that were published for consultation (MHD050).

<p>MM2*</p>	<p>In the Introduction chapter Changes within Para 1.9</p>	<p>4</p>	<p>However, to ensure the plan remains up to date it is likely to be reviewed before the end of the plan period. This could be as a whole or in part to respond to unforeseen circumstances and to ensure that the plan continues to plan positively for the development and infrastructure that the District requires. <u>relevant in the face of rapidly changing circumstances, the Council will commence a review of the Plan by the end of March 2016 and intends to adopt the Plan by the end of November 2018. The early review of the Plan will ensure that it remains appropriate for the District and continues to encourage and secure the development and infrastructure that the District requires. The review will be informed by an updated evidence base drawing on the strategic work underway for the Housing Market Area¹ and Functional Economic Area² and reflect the Duty to Cooperate.</u></p> <p>New footnotes:</p> <p>¹ <u>Eastern Dorset Housing Market Area.</u></p> <p>² <u>Dorset Functional Economic Market Area.</u></p>

The Annual target is a constant horizontal line at 285. The District Total (blue) starts at approximately 375 in 2011, drops to 140 in 2012, rises to 225 in 2013, and then fluctuates between 190 and 420. The Gillingham Southern Extension (red) starts at 0 in 2011, rises to 140 in 2012, and then fluctuates between 0 and 100.
