

Theme: 07 Theme 7 Transport Improvements

Issue: 04: Should approval of major new trip generating development be conditional on any of the following?

A Proximity to existing public transport or prior approval of suitable new transport infrastructure.

B Industrial development should not be allowed on outlying sites like Ferndown or the Airport unless it provides for easier access for those who do not have cars.

C Commercial developments should contribute to new transport infrastructure.

Issue: 06: What approach should we adopt for car parking provision?

A Maintain existing levels of town centre parking provision unless it can be provided in other locations.

B Provide new public parking in town centre locations in conjunction with any new development

C Manage parking more efficiently by reducing the pressure on our core car parks

G Take advantage of any redevelopment proposals to rationalise town centre car parking and reduce traffic intrusion

H In the longer term, consider opportunities for increasing the public parking stock.

I Introduce park and ride schemes

Theme: 07 Theme 7 Transport Improvements

Issue: 07: What type of proposals can be developed to improve safety on our roads and our local environment?

A Identify areas for comprehensive traffic management

B Identify villages or hamlets for speed reduction schemes

C Encourage the provision of 'home zones' in residential areas

D Provide more segregated footpaths and cycleways

E There should be tighter controls on traffic around schools, open spaces and key services and facilities to reduce impact and speed of vehicles and enhance pedestrian environment.

F Other, please specify
