

Appendix H - Supply from Neighbourhood Plans

The potential supply from Neighbourhood Plans is 40 units (net).

A contribution of 5 units is expected to be delivered within the first five years.

Source	Method of Assessment	Avoiding Double Counting
<p>Neighbourhood Plans</p>  <p>An assumption of the likely number of homes delivered from adopted Neighbourhood Plans on new sites outside current defined development boundaries</p>	<p>➤ Cerne Valley is the first neighbourhood plan to be adopted in the plan area. The total supply expected to be delivered by this neighbourhood plan is 40 units.</p>	<p>Areas identified for development in the neighbourhood plan have been checked to ensure there is no double counting with identified or submitted sites.</p>
