

View 1: View from the public footpath in the northeastern corner of the site looking southwest. Much of the site is obscured from view by vegetation within it and this could be used to form a landscape structure in any new development.

View 2: View from the public footpath by Broad Lane. The elevated position allows views across the site and to hills to the north.

NB: All views consist of one or more photographs taken with a Canon EOS 400 digital camera with the lens set to 50mm, forming a panorama. Copyright Savills (L&P) Ltd. No dimensions are to be scaled from this drawing. All dimensions to be checked on site. Area measurements for indicative purposes only.

drawing no.	SNUD202945
rev	Figure 7
scale	NTS @A3

View 3: View from the east side of Vearse Farm looking northeast and east. Vegetation on the site provides visual screening of the fields and some buildings beyond on lower ground. This could provide a foil to potential development.

View 4: View from Broad Lane where it bridges the A35. Roadside vegetation obscures most of the site from view.

NB: All views consist of one or more photographs taken with a Canon EOS 400 digital camera with the lens set to 50mm, forming a panorama. Copyright Savills (L&P) Ltd.
